

**IN THE ABSTRACT OF THE DISCLOSURE**

Please add the attached Abstract of the Disclosure to the end of the Specification as follows:

The invention relates to azolopyrimidine compounds of general formula (I), wherein A represents N or C-R<sup>6</sup>; X and Y, independent of one another, represent a chemical compound or oxygen, sulphur or a group N-R<sup>7</sup>; the variables R<sup>1</sup>, R<sup>2</sup>, R<sup>3</sup>, R<sup>4</sup>, R<sup>5</sup>, R<sup>6</sup> and R<sup>7</sup> have the meanings cited in the claims and the description. The invention also relates to tautomers of compounds of formula (I) and to the agriculturally compatible salts of compounds (I) and of the tautomers thereof. The invention further relates to the use of azolopyrimidine compounds of general formula (I), to the tautomers thereof and to the agriculturally compatible salts thereof which are used to combat phytopathogenic fungi, and to a method for combating phytopathogenic fungi and means for combating fungi, said means containing at least one compound of general formula (I), a tautomer of formula (I) and/or an agriculturally compatible salt thereof or the tautomer thereof and at least one liquid or solid carrier medium.
